Modern Woodmen.

A new camp of The Modern Woodmen of America was instituted at Little Rock, Bourbon county, Saturday night, March 9, with a Charter Membership of 29. The officers elected and installed were as follows:

Consul—H. C. Gillispie.
Advisor—L. A. Soper.
Bunker—Albert Evans.
Clark—Porley Evans.
Escort—Ed Reed.

Watchman—Ivan C. Soper.

Sectary—Joe D. Reed.

The work was exemplified by a degree team composed of Lexington, Mt. Sterling and Judy Camps, under direction of Chief Forester Dan Carpenter, of Henry Clay Camp of Lexington, and what this team done for the Little Rock boys was "a plenty," and if any further evidence is necessary, ask Goo, B. Chipley, Ira C. Stoper, J. W. Harrison and Albert Evans, of the Masonic Order, and W. E. Hughes, of Macabbee Notority.

J. W. DeHart, State Deputy of Louisville, assisted by J. W. Womack, District Deputy, in instituting the new camp, which by the way is 12,489. Consul Gilcrest lead the Mt. Sterling boys over to Little Rock and Chief Forester Pierson Hall led the Judy boys. Consul Sheeley, of Henry Clay Camp of Lexington, presided during the degree work.

We all had our money's worth. If you don't believe it ask Clarence Fogz, our efficient Escort of Mt. Sterling Camp. It was worth a new hat to him.

Hard For Physicians.

It is somewhat difficult for an American physician to open a practice in Peru. Before the doctor can be admitted he must take an examination in Spanish before a board in the usual medical and surgical subjects. The fee for this examination is \$500 in gold, being the same fee as that paid by a medical student during his seven years' course of instruction in the national colleges. The license, when obtained, is good for practice in Ecuador, Bolivia and Spain.

TO BUILD ROAD

CHICAGO CAPITALISTS SUBMIT PROPOSITION.

To Put Down Electric Line From Paris to Mt. Sterling.

A representative of Chicago capitalists has submitted a proposition to the company incorporated for the purpose of building an electric line from Paris to Mt. Sterling via North Middlestown, and if the incorporators agree to the proposition as submitted, the money will be forthcoming at once to build the line. The company desires to get a line on the survey of the road, the right of way, the terminal points, the cost of crossing roads, etc., whether the right of way will be given or whether it will have to be condemned. The company also desires to know the actual cost of building the entire line, and the population along the route. The incorporators are investigating the questions asked by the capitalists and will submit the desired information at once.

Don't use harsh physics. The reaction weakens the bowels, leads to chronic constipation. Get Dr. Dean's Regulets. They operate easily, tone the stomach, cure heart failure.

Expert on the creation of species has produced a white, blue-eyed, deaf, long-haired, tailless, polydactyl cat and guinea pigs having long silky goat's hair. These things ought to be advertised, because a nervous man sighting one suddenly might get heart failure.

TWO PRESIDENTS

GIVE VIEWS ON FOOTBALL.

PRESIDENT ROOSEVELT'S IDEA.

President Roosevelt, before the Harvard Union on Saturday, February 24, defended football. Among his striking statements he said:

I emphatically disbelieve in seeing Harvard or any other college turn out molly-coddles.

I do not in the least object to a sport because it is rough.

It is to my mind simple, no sense, a confession of weakness, to desire to abolish a game because tendencies show themselves which prove the game ought to be reformed.

We cannot afford to turn out of college men who shrink from physical effort or from a little physical pain.

The good citizen needs physical courage as well as moral courage.

Athletics, especially in their rougher form, tend to develop such courage.

PRESIDENT ELIOT'S IDEA.

President Eliot, in his annual report to the Harvard Board of Overseers, maintains football is an undesirable game for gentlemen. Among the points he makes are:

It is properly described by the adjective "fierce"—a term commonly applied to the game by its advocates. It therefore remains an undesirable game for gentlemen to play or multitudes to watch.

An extreme recklessness remains a grave objection to the game of football, and it also makes basket ball and hockey undesirable.

The gross exaggeration of all competitive sports is now working incalculable harm to schools, colleges and universities.

Continuous, pumped cheering during good and bad ball playing alike is absolutely unnatural and has no counterparts in the contests of real life.

PLEA

For Greater Louisville by Dr. T. M. Hawes.

Better Educational System Needed in State.

CITY IS TOO IRRELIGIOUS

"A Plea for Greater Louisville" was the subject of the discourse delivered at the Highland Presbyterian church by the Rev. T. M. Hawes recently. The speaker in the beginning enumerated some of the excellent achievements that the city can boast of and then proceeded to state what he thought was necessary to make the city greater. He said a better government and more love of God were needed and that a higher ideal of education was also necessary. He said in part:

My subject sounds somewhat secular, if not sensational. Nothing of that nature, however, is in my mind. My plea is for a city which hath foundations whose maker and builder is God. Our enthusiastic and self-sacrificing Commercial Club is looking after the material interests of our city, and doing it handsomely, for we truly have in these respects a Greater Louisville. Our park system surpasses that of any city of our size in all the land. There has been wonderful progress in building and manufacturing interests. Our street car system has been wonderfully improved, although just for to-day there is nothing doing. There is promise of a filter bye and bye, and let us not be too critical concerning the delay in this stupendous undertaking. But if we are to have a Greater Louisville, in the broadest and best sense, we must look to the foundations and build on nothing less than the ten commandments, with the four fundamental principles of reverence for God, reverence for His institutions, respect for authority, and right living in the individual life and in society. What kind of a Greater Louisville will we have if we build on these foundations?

MUST HAVE GOOD GOVERNMENT.

First—We will have the very best possible government. I do not say we have a bad government, but we will all agree that we need a better one. There are three essentials to a good government: Righteous laws, rulers who are righteous, and a public sentiment in favor of righteousness. Let us strengthen at the weakest point, which, in my judgement, is in the matter of public sentiment. The outlook here is encouraging for there is a growing sentiment in favor of righteousness. For the most part we have good laws. Our rulers are good, bad and indifferent, but if we can have a public sentiment in favor of righteousness many of the evils in our government will be remedied.

MUST HAVE HIGH IDEALS.

Second—We will have a city with the highest ideals as to education. This is essential to the public sentiment for which I have just been pleading. We need in our city a higher ideal in this direction. There are four things essential to higher education. First, imparting of useful information; second, teaching our boys and girls to actually do something that is worth doing; third, promoting a love for the beautiful, and fourth, developing the moral nature. We are not going far enough beyond the first step toward this ideal. There is need for an actual campaign throughout our whole state in favor of higher

education. There are many facts to prove this. For one thing our State is dangerously near the lowest round of the ladder in educational statistics. Another lamentable fact is that a wise bill in favor of a better educational system, and which would have eliminated politics from the whole matter, was smothered in our legislature, while at the same time a bill favoring racing, with its demoralizing influences, especially over your purity, was easily passed. If we are to have a truly Greater Louisville we must gird up the loins of our minds and strive for better things for the rising generation, and reach out for a higher ideal, that has for its climax the strengthening of the moral nature, and the creation of a public sentiment in favor of the good, the true, the beautiful.

A RELIGIOUS CITY.

Finally, if we build on these foundations above mentioned our Greater Louisville will be a religious city with a profound reverence for God and His institutions. We will have no other gods before Him. There are two evidences that we are not entitled to the name of a religious city. One is that we are not a Sabbath-keeping city. Not only do the one thousand saloons continue their degrading traffic on the Sabbath-day, in open and defiant violation of the law, but many lines of business are guilty of violating the laws of God and man. It has even come to pass that some of the large contractors continue the building of houses on the Sabbath day. The theaters and places of amusement reap, on this day,

their richest harvest. Another evidence that we are not a religious city is that we are not a church-going city. We have been in this part of Louisville, known as the Highlands, a population of thirty thousand, and yet the combined seating capacity of all our churches will not exceed three thousand, and very few of these are crowded. Doubtless this percentage and proportion would hold good all over the city. Not until there is a larger recognition of God and reverence for His institutions can we be truly called a religious city, and not until we build on these strong foundations to which I have referred can we have a truly Greater Louisville.

"My child was burned terribly about the face, neck and chest. I applied Dr. Thomas' Electric Oil. The pain ceased and the child sank into a restful sleep."

—Mrs. Nancy M. Hanson, Hamburg, N. Y. 34-4

Keep your eye on Hughes of New York. A good governor is apt to make a good President, and executive ability is a rare thing.

Philadelphia appears to be more content with corruption than enamored of reform.

Senator Wm. Alden Smith began life by selling papers, but that is a great deal better than ending it as a peanut politician.

Louisville has sent out the most successful evangelist of the year, the Rev. G. C. Bates. He has had nearly 3,000 conversions at his Memphis meeting. Previous meetings have been largely successful.

FINLEY E. FOGG.

We are informed that many friends throughout Kentucky are urging Judge Finley E. Fogg, of West Liberty, Ky., to enter the race for Prison Commissioner. Just what he will determine to do in the matter, we cannot say, but we do know that no better man could be found anywhere for this important position than our former countryman, Finley E. Fogg. He is a young man of sterling worth, well qualified for the place and in every way deserving of recognition. While young in years, he is an old party worker and since boyhood has always been found in the front ranks fighting for his party. He is at present a member of the Democratic State Executive Committee, representing this Congressional District, and in that capacity has rendered much valuable party service. He never does things by halves and should he enter this contest, we predict that he will make a winning fight.

If the next General Assembly desires to select a loyal Democrat, a Christian gentleman and one that will reflect credit upon the State as Prison Commissioner, then we say, look no farther! Let Old Morgan County, with its six hundred Democratic majority furnish him, and let that man be Finley E. Fogg, of whom Eastern Kentucky, and especially Morgan and Montgomery Counties, are justly proud.

WHAT NEXT?

Prof. Cord's wonderful success with a school here furnishes convincing evidence that school buildings can be put up, a school maintained, and the stockholders in such an enterprise receive an acceptable dividend on the amount of money invested. Who will be the men to put such an undertaking on foot? Mt. Sterling should have an endowed college, but if that does not strike you favorably, a building would do. Prof. Cord thinks with a building with dormitories, etc., it would be an easy matter to start a school here with 300 pupils. Wouldn't such a movement be worth while?

CITY AFFAIRS.

An admission that the stone formerly used and that now in use does not meet requirements, that its use is not an economical expenditure of money should be cause for the abandonment of both—not a year hence, two years hence or any time in the future, but now. Is the present council interested to that extent that they will follow the suggestions of the Mayor to use brick, asphalt or wood? The streets are in a deplorable condition and need immediate attention. What substance will supplant the stone now in use and which it is admitted is not practical?

PAVEMENTS.

Better and more pavements are needed and the laws pertaining to the construction of same are growing stiff for lack of use. What will the council do about pavements?

CITY FREE DELIVERY.

The people have done their part in securing a city free delivery. The amount for sale of stamps is adequate and it is now up to the city to number the houses and name the streets. What will the council do? Is it ready for business?

GOVERNMENT BUILDING.

To meet the requirements of Congress, in order to secure an appropriation for a government building, it is necessary to take a new census of our city and make a showing of a population not less than five thousand. This is more work for the city council. Judge McKee at one time offered to do this work free of charge, in connection with a committee appointed by the city council. The expense now would be light. Shall we have the building? Then order the taking of the city census.

WHAT IS A NUISANCE?

Consider the dilapidated buildings on East Bank street, then answer this question. Should there be nuisances allowed here-tofore, they should be abated now.

To be an acceptable councilman means the bringing into requisition of nerve and industry. No time for loafing, if a councilman

SEWERAGE SYSTEM.

A sewerage system is needed. What will the people do about it if given an opportunity of expression? They are entitled to an expression.

United work will bring many helpful things to pass.

MORE TO FOLLOW.

A negro soldier in the Brownsville affair confesses. A white man knocked a negro soldier down which precipitated the attack on innocent citizens. So it turns out that the President was correct in discharging these negro companies.

ENTERTAINED EASILY.

The Republican Committee had been somewhat disturbed for fear it could not offer adequate entertainment until we informed it that religious bodies had entertained on the free basis more than twice the number expected on the 16th of April. The rate fixed for board and lodging is \$1.50 per day and should be an incentive to throw open a great number of the private houses. It should be the pride of every citizen to see that these representative citizens be royally entertained. It can be done with ease and we feel there will be homes in abundance and to spare. Let every one do their best, heartily welcoming the distinguished guests.

A GO.

The Infirmary is a go. The desired amount has not been raised, but sufficient to guarantee the building of the institution. It will be a great adjunct to the business interests of Mt. Sterling.

Thousands of dollars will be saved for circulation here instead of going away, and many thousand more will be brought here from other localities. Should it become necessary to have other physicians in consultation, the physicians would come here rather than send on sick people to them. Mt. Sterling can bring most anything to pass when her people try.

WHAT NEXT?

NOT TOLERABLE.

A boy in obedience to the wish of his mother went to Mt. Sterling marketing. As he entered the city limits a negro boy climbed on to the rear of the buggy and before getting into the business part of the city jumped down, taking with him a basket of butter. The negro is at large and some people may think such actions real蠢.

No arrests, no one suspected, such conduct is frequent and is becoming very intolerable.

COME.

We don't want any delegate contemplating coming here to attend the Republican Convention April 16th to feel they will not be properly entertained. Our people will provide ample entertainment though there were twice the number coming. Just test our capacity to entertain and we will show the delegates how easy and how elegantly our people can care for large bodies. Come. Our home will be open to the strangers.

Call on us. Look at our goods. We welcome you whether you buy or not. Come into see us our opening days. Thursday and Friday before Easter.

March Court.

About 1200 cattle on the market. This is a large run for March. The quality was medium. Trade was a little slow in the morning, owing to the high prices asked. Some reduction in the afternoon caused more life in trade. The best 1000-lb. steers sold at 42 to 5c. Most of sales at about 4c. Yearlings at 41 to 5c, with some sales by the head even higher. Heifers, 31 to 3½c; cows at 3c; bulls at 2 to 3c. Not as large crowd at the pens as usual, but plenty to buy all the seasonable stock at good prices. We caught a few sales, but most of the cattle were sold by the head, so it is difficult to keep up with the trade. John Allen sold 7 750-lb. cows to C. C. Kookendolph at 3c.

T. S. Barnes bought 10 about 400-lb. steers at \$19 per head from Thos. Johnson.

B. T. Henry bought 13 about 450-lb. steers of John Allen at \$21.

W. W. Gay bought 3 875-lb. steers of J. R. Hobbs at 4½c.

Geo. Halsey sold 16 880-lb. steers to Ernest Hadder at \$4.90.

Mrs. W. E. Jones bought 10 about 600-lb. yearlings of John Allen at \$30.

Ben Murphy sold 4 800-lb. steers to W. W. Gay at \$4.25.

G. T. Fox bought 22 400-lb. yearlings of Murphy & Co., at \$19.

A. T. Etcham bought 5 about 600-lb. yearlings at \$15 for the lot.

Geo. McCormick sold 7 550-lb. heifers to Thos. McCormack at 3½c.

Hiram Long sold 24 about 450-lb. yearlings to M. H. Lewis at \$20.

Geo. Halsey sold 7 750-lb. yearlings to Richard Donelson, of Sharpsburg, at 4c.

A. S. Hart bought 6 1000-lb. steers of Geo. Halsey at \$4.90.

Howard Hampton, of Clark county, bought 101 heifers and cows at from 3 to 3½c.

MULES.

A big lot of mules on the market, but trade seemed to be dull and prices easier on most of them. Some big, heavy mules sold at \$225 per head; 16 hand mules at \$20; 16 2½ hand mules at \$165 to \$175; 15 hand mules, good weight, at \$150; small mules, \$90 to \$125.

Greenwade & Co. sold 5 1300-lb. mules to Carder & Beard at \$225.

Gentry & Thompson bought several head at \$150 to \$200.

Horses were in demand and sold at good prices.

B. H. Rice sold a nice brown harness horse to M. Beard, of Lexington, at \$200.

G. E. Swindell & Co. sold a black road mare to a Lancaster party at \$200.

Good horses sold at \$150 to \$165.

3 Has had more experience (60 years).

4 There is not a change in the firm at every "change" of the owners. It's the same name, as it was in 1847—**"HOFFMAN'S INSURANCE AGENCY."**

5 Has the most efficient help of any agency in the State (outside of Louisville), and only one agency there ahead of us. Two Stearns, Policywriter, Cashier, Special Agent, Manager Fire, and Manager Life and Accident Department.

6 It is the largest agency, not only in Mt. Sterling, but in Eastern or Central Kentucky. Its business is more than that of all other agencies in Mt. Sterling combined.

7 All property is personally inspected at issuing of policy and at the time of a fire the loss always receives prompt, personal and careful attention.

8 We have, as yet, to find a dissatisfied customer. Our customers are our friends, and our friends are our customers. "A satisfied customer is our best advertisement."

9 A man can get **every kind of insurance** right here in one agent's office to protect his business through every "Tom, Dick and Harry." We write Fire, Life, Accident, Health, Plate Glass, Liability, Steam Boiler, Live Stock (a new department) Bonds—in fact, **every kind of existing insurance.**

10 Because we are the most experienced agents, **have made insurance a study**, and that when **HOFFMAN** is stamped on a policy it's known that **it is as right as right can be.**

Are you satisfied that **your insurance** is where you want it? Wouldn't you feel safer if it was placed where you need have no fear should an accident occur? Suppose you drop in and get our rates before insuring or renewing elsewhere.

And Ashes.

Calvary Baptist Church, Lexington, Ky., of which Dr. W. P.

Hines is pastor, has had the misfortune to lose their house of worship by fire.

A large congregation met Dr. Hines Sunday night and Monday morning the building was reduced to ashes. This building cost \$16,000 and was dedicated last May.

The insurance on the building is about \$25,000 and on the furniture there was a loss of \$3,000, and a total loss of \$28,000.

It is supposed the fire was occasioned from an over-heated furnace.

The loss is great and the congregation is not able to stand it. This loss should appeal to the generosity of the brethren all over the State, who doubtless will give liberally of their accumulations.

SPRING 1907

SPRING 1907

EASTER OPENING!

The House of Walsh Bros. begs to announce to their friends, the buying public, that all spring and summer stocks are now ready for inspection. Many months ago the orders were placed for the fabrics worked in the celebrated makes we sell. But few stop to think of the great care and the continual worry exercised in collecting a stock that will meet all demands, suit all tastes, and contain an individuality and exclusiveness that stamps them different from the rabble, and yet retain every point of style. It is, and always has been, our aim to show each and every season the newest creations in an ample assortment that no man would have to turn away with any other impression than that the House of Walsh Bros. was second to none in the State. The model garments from the tailor shops of Stein-Bioch and Hamburger Bros. can now be seen in our store. Styles for the young fellows, who want dash in their clothes; styles for the conservative man, and styles for the business man, all worked by willing hands into substantial clothing that will stand the test of time and the comparisons of the critic. Every color that is new will be seen here and at prices as low as consistent with good merchandise. The opportunity is here for you to have the best—if you don't get it the fault is yours. We request you to come and see, whether you buy or not, that you may know our styles.

POPULAR COUPLE

Chas. S. Talbott and Miss Nellie Fatto; United in Marriage at Phoenix Hotel.

Mr. Charles S. Talbott and Miss Nellie Patton, well known young people of Bourbon county, were married in the parlor of the Phoenix Hotel, Lexington, Saturday afternoon. The couple were unattended and after their marriage remained over night at the Phoenix. The bride is the pretty daughter of David Patton, a farmer of the Shawan neighborhood. The groom is the son of James H. Talbott, of the same locality and is a well-to-do young farmer. The marriage will be quite a surprise to their many friends in Bourbon.

Miss Patton is a sister of Mrs. Abner Oldham, of this city, and has been a frequent visitor here.

At Home.

Mr. John P. Jones, dealer in dry goods, notions, etc., is at home from New York, where he has been to purchase the imported novelties of the season. This is Mr. Jones' second trip to New York for the season. With this second importation and a third which he will make later on, there will not be a store in Kentucky more complete or that will come nearer meeting the demands of any trade. Mr. Jones' trade is all he could expect.

A WOMAN'S BACK.

The Aches and Pains Will Disappear if the Advice of This Mt. Sterling Citizen is Followed.

A woman's back has many aches and pains.

Most times 'tis the kidneys' fault. Backache is really kidney ache. That's why Doan's Kidney Pills cure it. Many Mt. Sterling women know this. Read what one has to say about it.

Mrs. Parmelia A. Fletcher, of Queen street, Mt. Sterling, Ky., says: "For years I had kidney complaint, pains across the small of my back and over my kidneys, dreadful aching in my back and I was sometimes so lame across my hips that I could not stoop and there was also difficulty with the kidney secretions. I used different medicines and prescriptions which seemed at the time to relieve me, but I obtained no lasting benefit. I read about Doan's Kidney Pills and a relative of mine got a boy for me at F. C. Duerson's drug store. I used them as directed and they helped me in every way. 'My back felt much stronger and the annoying and distressing kidney weakness was greatly relieved. My brother, Brother D. Carrington, of Paris, who had suffered a good many years with kidney trouble, also used Doan's Kidney Pills and found the results most beneficial. Doan's Kidney Pills are certainly worthy of recommendation."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other!

STATE SENATOR

COTTERILL HOLDS HIS SEAT.

Washington Senate Fails to Unseat the Head of American Grand Lodge of Good Templars.

When the Hon. George T. Cotterill, Grand Chief Templar of the Good Templars in the United States, smashed old party machinery and won out by just two votes November 6 last in a district in this city which had long been considered a stronghold of liquor politics, the whisky men vowed that he would never take his seat in the legislature. The first round of the fight has just been fought and Cotterill is on top.

The contest is over so far as the Committee of Investigation is concerned. The ground was being contested inch by inch by the best legal talent in the State. The crisis came when the box supposed to contain the ballots of the Ninth precinct of the Eighth Ward, which had been carefully guarded ever since the election, proved to be the ballot box of the Sewer Bond election. The box wanted had not been in possession of the Auditor as required by law, so that it was impossible to recount the ballots. Up to this point the contestant had been in favor with the Committee, composed as it was of four republicans and one democrat. Here he met his Waterloo and the Committee was a unit in deciding that Mr. Cotterill's right to the seat must stand upon the election returns already made in his favor.

Mr. editor of the advocate

I got a holt of your paper once and a while, and did my aches if I don't like to read it. It gives so much reading. Sal, the old woman wants me to subscribe for it. She thinks its the best paper that comes up in this digressions. She is after me to take it all the time as she will pay half of the sub scripshun her self. She set old dominoes to day on thirty six hen eggs an twenty duck eggs. I tell you rite now it was al she end do to hover all the eggs, but the aint one pulllett out of a thousand that can flop her wings as for us our old dominoes. I got bin tolde by sum people that claims to hav had experince in the poltra bizness that all eggs set in the dark of the moon produce large wing chickens. Sal see she has noticed this long ago. By gosh I never herd of the moon having any thing to do with hatching chickens before. Darn my button if I no how to swallow it. I hav bin in this kntry for sum three scor and ten an its the first time I ever herd of this kind of a chicken job. I will ask mr. moor sumthing a bout it, he is an old chicken hanler from a way back. Bruce turner see what mr. moor dont n a bout hatching chickens ait worth noing. I hav had sum experine raising chickens in the night, but payed no attention to the moon bizness. Sal has grage faith in those old fog ideas, but as to me I am afflited slo to take holt of every wild goes story I here a bout chicken raising. I seen a dad burnd good piece in the advocate last week written by sum body down in florido. Jane red it over time an a giv she en joyed it so much. Jane has bin down in florido two or three times her self. She sees she all a bout the hotel places that falls wrote about. She sed it was a fact a bout the ladies waring three or fore dimond rings on each hand. As to the ladies turning doble sunsermets out of the second story of the hotel in to the water she had dun it her self, but she all ways tuck off her dimond rings. They ottamables and double geared biycles did cost like lens a pecking when the big crowds gathered and wanted to go and take a little Jollification at the spanish fort. Jane sees all new strangers have a rite smart time of a sunday finding a saloon open to get a drink of calamity water. Tha start out and inquire of evry one the morn a bout how to find a open calamity fountain. When the dont suc seed in finding a drink the give up the calamity job and drop in sum church and attend sundy school meetings for pass time. He be dad sap if it aint the place to see all kind of sights. We folks up here on Black Jack Creek never traveled much in dixies land and we love to here from those who hav. Sal see she hopes to git a holt of another wivocate soon. I spee I will hav to subscribe for it jest to please the old duck. I all ways believe a man aout to do any little olde unreasonable thing that will pleass his wife. Mee and Jane is going to attend the elect county court when them Jackson peoples tries comes off. I dont no what to think a bout that last assumed assassination by a man with woman harness on. I dont no but it sounds mita like a summer job to a man up o tree. It may haum afit in the elect trial. It is all to gether how and who handles the question. We no evry thing is to be dun as squar as a pistol in this elect trial. Our govor dont want any crooked work dun may the heavens fall. Well I am not in shape to express my opinion only in a scattering way at present, but when mr. moor returns from stanton I may git more lite on the subject, and will be better prepared to isher my preklamation on the assassination laws of the kntry. You here what I said.

**Schnapps Tobacco is Made ENTIRELY from Flue Cured
Tobacco Grown in the Piedmont Country.
The Imitation Brands Have Schnapps
Quality Only On the Outside
Of the Plug**

Hundreds of imitation brands are on sale that look like Schnapps tobacco. The outside of the imitation plugs of tobacco is flue cured the same as Schnapps, but the inside is filled with cheap, flimsy, heavily sweetened air cured tobacco. One chew of Schnapps will satisfy tobacco hunger longer than two chews of such tobacco. The color, size and shape of the tags, plugs and packages of certain imitation brands of tobacco have been made so much like Schnapps that they have often been accepted by buyers under the belief that they were getting Schnapps. Sufficient proof has been secured to establish the fact that certain brands are infringements and in violation of the trade mark laws, yet the trade will continue to be imposed upon by these infringers until the suit already entered and now pending to protect Schnapps is decided. A great many of these imitations are

claimed to be "just as good" as Schnapps, but there is only one genuine Schnapps. Be sure the letters on the tag, and stamped on the plug under the tag spell S-C-H-N-A-P-P-S and then you have it—the most wholesome tobacco produced, with just enough sweetening to preserve the mild, juicy, stimulating quality of the leaf tobacco. Expert tests prove that this fine cured tobacco, grown in the famous Piedmont region, requires and takes less sweetening than any other and has a wholesome, stimulating, satisfying effect on chewers.

If the tobacco you are chewing don't satisfy you more than the mere habit of expectorating, stop fooling yourself and chew Schnapps tobacco. Schnapps is like the tobacco chewers formerly bought costing from 75¢ to \$1.00 per pound; Schnapps is sold at 50c. per pound, in 5c. cuts, strictly 1oc. and 15c. plugs.

Preaching at Springfield next Sabbath morning at 11 o'clock.

Preaching at Southern Presbyterian Church next Sabbath evening at 7:30. No preaching in the morning.

Elder Durand, of Philadelphia, will preach at the home of Mrs. S. Lane, this city, April 15. To this service the public is invited. Rev. J. R. Hobbs filled the pulpit of Dr. W. H. Felix Davids Fork, on last Sabbath, Dr. Felix being in Florida on account of his health.

The Baptist of Missouri are holding, in cities where there are more than one Baptist Church, Union Baptist Evangelical meetings, also in associations. In such meetings, the preacher can deliver a complete course of gospel mission, where in a union meeting of denominations it could not be done, without some becoming offended. The scriptures enjoin the preaching of the whole truth.

The Christian Endeavor Society of the Southern Presbyterian Church will be conducted under the auspices of the Correspondent's Band next Sabbath evening at 6:30 o'clock. Leader: Mr. Lloyd Frazer. Subject: The Famine in China. Every member is requested to come and bring an offering for the Famine Sufferers. The public is invited. Special music. W. O. Hopper, President.

DEATHS.

SNEDGEAR.—Thomas Snedgear, a tobacco dealer of Bath county, died last week from pneumonia.

NORTH.—Mrs. Sarah North, of Bath county, aged 80 years, died at her home last week from pneumonia.

WEEDON.—After having been in declining health for more than twelve months, Mr. M. A. Weedon departed this life Saturday, March 16th, aged 65 years. He leaves one son—Richard and two daughters—Mrs. Dillard Hazelrigg and Mrs. Maxine Snodgrass and three grandchildren. After serving at the grave by Rev. J. B. McDaniel, the remains were buried in McDaniel cemetery. Mr. Weedon was a man with many noble traits. Generous, mindful of his children, a correct business man and true friend. He was a native of Fleming county and came here and engaged in the hotel business. Retiring from this business he purchased the C. T. Embry farm and moved to the country, returning later to this city where he engaged in the saloon business. He was a man of many friends.

WHITE.—Mrs. Emily White, who died Tuesday, the 12th inst., at the home of her son, Clarence, near Somerset Church, was a devout Christian for more than half a century—one who could consistently say, "I have found a good right, I have found my course, I have found the faith."

She was born January 3, 1831; married to William White July 28, 1849; a member of the Somerset Christian church more than sixty years; a teacher in the Sunday school since its organization till January of this year; a devoted wife; a fond, loving mother; a true neighbor; a friend in need and in deed; and always did what she could be in the home, in the community and in the church.

She leaves two sons—James and Clarence—who can emulate their mother's most worthy example and in the end of life go to be laid to rest in the home of the beloved.

She has gone, but her example and her works live after her to influence and mold lives for the eternal day.

The funeral services were held at the home of James White on Savery Alley, was lodged in jail yesterday upon complaint of her neighbors. She had sent her little boy to Poth Bros. Grocery to buy 50¢ worth of goods and had given him a one dollar bill. By mistake he went to some other store and brought back only 25¢ in change. This enraged the mother to such an extent that she beat the little fellow most unmercifully and the neighbors hearing the boys screams phoned to Police Headquarters. We feel sorry to the mother as well as her boy.

MORAL.—Always go to Poth Bros. and get the right change back.

Nothing can be found anywhere that is more attractive than the millinery at Mrs. K. O. Clark's Opening Thursday, Friday and Saturday, March 28, 29 and 30.

Increased price in crude oil has stimulated work in Kentucky and it is hoped many wells will be brought in.

Hilber & Robinson.

Precious mother, she has left us, Left us, yes, forever more;

But we hope to meet our loved one

On the bright shore.

Lonly the house and sad the hours

Since our dear one has gone;

But, oh, a brighter home than ours in Heaven is now her own.

Parents must die, but not forever,

Fathers will be a glorious man.

We shall meet to—never never

On the resurrection morn.

The tall, daring form sleeping

In cold, dark quiet tomb,

Thou shall have a glorious waking

When the blessed Lord doth come.

We are giving special attention to our trunk department.

JNO. P. JONES.

Novel Suit.

Attorneys John A. Judy and Earl W. Senff are preparing a test suit against the City of Mt. Sterling, that will be watched with considerable interest by lawyers everywhere.

For many years the Police Court of this city has taxed as costs an attorney's fee of \$2.00 and a fee of \$1.00 for the arresting officer.

Recently the Court of Appeals decided that such charge was illegal, with the exception of fifty cents for the arresting officer.

It will therefore be contended that \$2.50 is due every man that has paid a fine in the last five years.

They have several hundred suits of this character, but will withhold action upon them, until the test suit is disposed of.
